

The Airways of "Healthy" Vapers are Abnormal

New research has found that vaping alters the physical appearance of airways and lung macrophages.

The long term effects of vaping are unknown...

DON'T BE A LAB RAT.

stop vaping.

My people are destroyed for lack of knowledge: because thou hast rejected knowledge, I will also reject thee, that thou shalt be no priest to me: seeing thou hast forgotten the law of thy God, I will also forget thy children. Bless the LORD, O my soul, and forget not all his benefits: Who forgiveth all thine iniquities; who healeth all thy diseases;

Who redeemeth thy life from destruction; who crowneth thee with lovingkindness and tender mercies; ~Hosea 4:6, Psalms 103

It's not like you can
buy a new brain.

The human brain is the last organ to fully develop, at around age 25.
Nicotine in e-cigarettes can harm brain development and lead to
addiction in youth and young adults. Let's protect our kids.

Just because it's **vapor**,
doesn't mean it's safer
